

NOW APPROVED FOR ADULTS WITH ACTIVE PSORIATIC ARTHRITIS

FOR LESS JOINT PAIN, STIFFNESS, AND SWELLING AT 24 WEEKS
INDIVIDUAL RESULTS MAY VARY

MOVE TOWARD TREMFYA®

TREMFYA® is a prescription medicine used to treat adults with active psoriatic arthritis

SELECTED IMPORTANT SAFETY INFORMATION

TREMFYA® is not for everyone; only your doctor can decide if it's right for you. Do not use if you are allergic to TREMFYA®. TREMFYA® is a prescription medicine that may cause serious side effects, including serious allergic reactions and infections. TREMFYA® affects your immune system. It may increase your risk of infections and lower your ability to fight them. Please read the [Important Safety Information](#) on page 5 and the [Medication Guide](#) for TREMFYA® to learn more about these and other risks for TREMFYA®. Discuss any questions you have with your doctor.

FDA APPROVED SINCE 2017

Since its approval for moderate to severe plaque psoriasis in 2017, an estimated 45,000+ U.S. patients have started treatment with TREMFYA®.

TREMFYA® is a prescription medicine used to treat adults with moderate to severe plaque psoriasis who may benefit from taking injections or pills (systemic therapy) or phototherapy (treatment using ultraviolet or UV light).

And now it has been approved for the treatment of adults with active psoriatic arthritis. It **selectively blocks interleukin 23 (IL-23), one of the key proteins thought to be responsible for symptoms of psoriatic arthritis. TREMFYA® is the first and only medicine of its kind to be FDA approved to treat adults with active psoriatic arthritis.**

TREMFYA® has been studied in patients. How TREMFYA® works has been demonstrated in laboratory studies.

RESULTS WITH TREMFYA® IN ACTIVE PSORIATIC ARTHRITIS

TREMFYA® CAN HELP REDUCE JOINT PAIN, STIFFNESS, AND SWELLING

In two medical studies, more than half of patients treated with TREMFYA® had at least a 20% improvement in active PsA symptoms (joint pain, swelling, stiffness) at 24 weeks compared to placebo.

STUDY PARTICIPANTS WITH AT LEAST A 20% IMPROVEMENT IN JOINT SYMPTOMS AT 24 WEEKS

STUDY 1	STUDY 2								
<table border="1"> <tr> <td>TREMFYA® 100 mg every 8 weeks</td> <td>52% (n = 127)</td> </tr> <tr> <td>Placebo group</td> <td>22% (n = 126)</td> </tr> </table>	TREMFYA® 100 mg every 8 weeks	52% (n = 127)	Placebo group	22% (n = 126)	<table border="1"> <tr> <td>TREMFYA® 100 mg every 8 weeks</td> <td>64% (n = 248)</td> </tr> <tr> <td>Placebo group</td> <td>33% (n = 246)</td> </tr> </table>	TREMFYA® 100 mg every 8 weeks	64% (n = 248)	Placebo group	33% (n = 246)
TREMFYA® 100 mg every 8 weeks	52% (n = 127)								
Placebo group	22% (n = 126)								
TREMFYA® 100 mg every 8 weeks	64% (n = 248)								
Placebo group	33% (n = 246)								

Individual results may vary.

FEWER SYMPTOMS—MORE OF WHAT YOU USED TO DO

TREMFYA® can help reduce the joint pain, stiffness, and swelling that make everyday tasks harder to do. In medical studies, patients' ability to perform everyday activities was assessed in a questionnaire. At 24 weeks, people taking TREMFYA® showed an overall improvement in their ability to perform everyday activities such as:

MORE THAN JOINT RELIEF—CLEARER SKIN, TOO

In medical studies at 24 weeks, an improvement in psoriasis skin plaques was seen in psoriatic arthritis patients treated with TREMFYA®.

FATIGUE WAS REDUCED IN SOME PATIENTS TREATED WITH TREMFYA®

In two medical studies at 24 weeks, the level of fatigue was assessed using a questionnaire to measure self-reported tiredness, weakness, and difficulty conducting usual activities due to fatigue. Patients were asked to indicate their level of fatigue in the seven days prior.

Individual results may vary.

TREMFYA®
2 STARTER DOSES AT
WEEK 0 AND WEEK 4

6

MAINTENANCE DOSES
1 dose every 8 weeks

INJECTION SUPPORT

A NURSE IS JUST A PHONE CALL AWAY

Even after you've been trained by a healthcare professional to give yourself an injection, you may still have questions. Janssen Nurse Support* can help answer questions about giving yourself an injection at home, preparing your injection site prior to self-injecting, and properly disposing of your used syringe or injection device.

Connect with Janssen Nurse Support at **877-CarePath (877-227-3728)**, Monday–Friday, 9:00 AM to 8:00 PM ET. At all other times, a nurse will typically return your call in 15 minutes.

*Janssen Nurse Support is limited to education about your Janssen medication, its administration, and/or the condition it treats. It is not intended to provide medical advice, replace a treatment plan you receive from your doctor or nurse, or serve as a reason for you to start or stay on treatment.

DISCOVER THE ONE-PRESS

A patient-controlled self-injection device that was created with you in mind. The One-Press device features an easy-to-hold design. And if you're not a fan of needles, you're in luck: One-Press has a hidden needle feature so you won't see the needle unless you go looking for it.

The One-Press Self-Injector was awarded the Arthritis Foundation's Ease of Use seal after being tested by patients with psoriatic arthritis.

Not actual size

Your first self-injection should be performed at your doctor's office so he or she can show you the right way to give yourself the injections. After this training, and with your healthcare provider's approval, you may be able to inject at home.

Please read the [Instructions for Use](#) before using your [TREMFYA® One-Press injector](#) and each time you get a refill.

TAKE A VIRTUAL TOUR IN 3D

SCAN THE CODE WITH YOUR SMARTPHONE TO BEGIN

1. Point your smartphone camera at the marker to get started
2. Use your fingers to rotate and zoom in on the One-Press
3. Tap "See It Live" and experience the One-Press in 3D

SELECTED IMPORTANT SAFETY INFORMATION

TREMFYA® is not for everyone; only your doctor can decide if it's right for you. Do not use if you are allergic to TREMFYA®. DISCOVER SUPPORT OPTIONS

Once you and your doctor have decided that TREMFYA® is right for you, Janssen CarePath will help you find the resources you may need to get started and stay on track. We will give you information on your insurance coverage, potential out-of-pocket costs, and treatment support, and identify options that may help make your treatment more affordable.

Visit JanssenCarePath.com/TREMFYA

Create a **Janssen CarePath Account** at MyJanssenCarePath.com where you can learn about your insurance coverage for TREMFYA; if eligible, enroll in the Janssen CarePath Savings Program and manage program benefits; and sign up for treatment support.

Need help? Call a Janssen CarePath Care Coordinator at **877-CarePath (877-227-3728)**, Monday–Friday, 8:00 AM to 8:00 PM ET

START WITH TREMFYA® SO SIMPLE TRIAL PROGRAM

The **TREMFYA® So Simple Trial Program** provides you with your first dose of TREMFYA® so you and your doctor can determine if it is right for you.

- \$0 COST
- Connect with a Care Coordinator from Wegmans Specialty Pharmacy to enroll (you'll get a call from 866-889-5660 within 24 hours of receipt of the trial program prescription). You'll then get a call from a Care Coordinator in approximately 14-21 days from the date your medication is delivered to talk through insurance coverage. If this information is not available, a Care Coordinator will call you within 7 days to discuss next steps
- Shipment can be authorized within 3 business days after a prescription*
- This trial program is open to patients who have commercial insurance, government coverage, or no insurance coverage. However, there is no guarantee of continuous accessibility after the program ends

Ask your healthcare provider how you can quickly get started with a 1-month trial at no cost.

This program is for medication only. Terms expire at the end of each calendar year and may change.

*Shipment date is dependent upon you opting in to the program and scheduling shipment.

SAFE RETURNS® NEEDLE DISPOSAL PROGRAM

If you've received approval from your doctor to inject at home and have been properly trained, you can use **Safe Returns®** as a simple, safe, and convenient way to dispose of your used syringes or the One-Press injector—at no cost to you. When you sign up at Tremfya.com/safe-returns, you'll receive an FDA-approved Safe Returns® plastic disposal container in the mail, along with easy-to-follow mail-back instructions.

STAY ON TREMFYA®

IF YOU HAVE COMMERCIAL INSURANCE AND YOUR INSURANCE COVERAGE FOR TREMFYA® IS APPROVED

JANSSEN CAREPATH SAVINGS PROGRAM*

- Eligible patients **pay \$5 per injection**
- \$20,000 maximum program benefit per calendar year
- See full program requirements at Tremfya.JanssenCarePathSavings.com

IMPORTANT SAFETY INFORMATION

What is the most important information I should know about TREMFYA®?

TREMFYA® is a prescription medicine that may cause serious side effects, including:

- **Serious Allergic Reactions.** Stop using TREMFYA® and get emergency medical help right away if you develop any of the following symptoms of a serious allergic reaction:
 - fainting, dizziness, feeling lightheaded (low blood pressure)
 - swelling of your face, eyelids, lips, mouth, tongue or throat
 - trouble breathing or throat tightness
 - chest tightness
 - skin rash, hives
 - itching
- **Infections.** TREMFYA® may lower the ability of your immune system to fight infections and may increase your risk of infections. Your healthcare provider should check you for infections and tuberculosis (TB) before starting treatment with TREMFYA® and may treat you for TB before you begin treatment with TREMFYA® if you have a history of TB or have active TB. Your healthcare provider should watch you closely for signs and symptoms of TB during and after treatment with TREMFYA®.

Tell your healthcare provider right away if you have an infection or have symptoms of an infection, including:

- fever, sweats, or chills
- muscle aches
- weight loss
- cough
- warm, red, or painful skin or sores on your body different from your psoriasis
- diarrhea or stomach pain
- shortness of breath
- blood in your phlegm (mucus)
- burning when you urinate or urinating more often than normal

Do not take TREMFYA® if you have had a serious allergic reaction to guselkumab or any of the ingredients in TREMFYA®.

Before using TREMFYA®, tell your healthcare provider about all of your medical conditions, including if you:

- have any of the conditions or symptoms listed in the section “What is the most important information I should know about TREMFYA®?”
- have an infection that does not go away or that keeps coming back.

- have TB or have been in close contact with someone with TB.
- have recently received or are scheduled to receive an immunization (vaccine). You should avoid receiving live vaccines during treatment with TREMFYA®.
- are pregnant or plan to become pregnant. It is not known if TREMFYA® can harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if TREMFYA® passes into your breast milk.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of TREMFYA®?

TREMFYA® may cause serious side effects. See “What is the most important information I should know about TREMFYA®?”

The most common side effects of TREMFYA® include: upper respiratory infections, headache, injection site reactions, joint pain (arthralgia), diarrhea, stomach flu (gastroenteritis), fungal skin infections, herpes simplex infections, and bronchitis.

These are not all the possible side effects of TREMFYA®. Call your doctor for medical advice about side effects.

Use TREMFYA® exactly as your healthcare provider tells you to use it.

Please read the full Prescribing Information, including Medication Guide for TREMFYA®, and discuss any questions that you have with your doctor.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch, or call 1-800-FDA-1088.
